BARLEY - Normal / Super Attack & Star Power

UNDILUTED - Normal Attack

Barley lobbs a bottle, breaking it on the ground. Enemies take damage from the splash, and more damage over time if they stay in the puddle. This move can be used to tactically corner an enemy or defend a point on the map.

LAST CALL - Super Attack

Barley hurls a flurry of fiery bottles, covering a huge area in flames. Deny enemies passage using this attack and deal massive damage to those unlucky enough to be caught in the flames! Damage from different bottles from the Super do not stack.

Star Powers List

Medical Use

Barley regains 300 health from each main attack. A useful Star Power to have, you can easily regain health by throwing bottles when in a pinch. You don't even need to be targeting anyone!

Extra Noxious

Adds +140 damage per second to Barley's attack. Barley will be more effective in controlling areas in different game modes, and an overall more deadly Brawler!

Gem Grab

Control Enemies' Direction With AoE Attacks

Barley has the capability to control the direction of where enemy Brawlers can go by lobbing his AoE attacks towards them. He can corner them, rendering them unable to go near the gem mine.

AoE Attacks Can Be Used To Harass Enemy Front Line

With Barley's attacks dealing area-of-effect damage, he can harass & push the enemy front line backward. This will allow his team to take control of the gem mine and win the match!

Showdown

Lacks Fire Power To Instantly Defeat Enemies

Barley is not that effective in Showdown. He lacks the attack power to burst down on enemy Brawlers, unless he uses his Super. Players need the right timing & skill to make him useful.

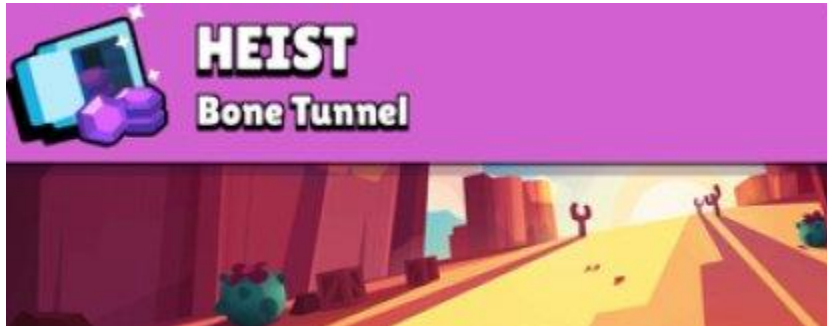

Stick To Walls & Obstacles

Barley is able to lob his bottles over walls and obstacles so it's best to stick to them to do damage while avoiding getting hit directly by enemy shots.

Corner Enemy Brawlers To Eliminate Them

In Showdown, try to corner enemy Brawlers. They won't have the space to move and Barley's attacks will be able to damage them over time.

Heist

Very Effective In Damaging Enemy Safe

Barley can be quite effective in Heist Mode. He is able to throw his attacks over walls & obstacles, allowing him to damage the enemy safe while being a short distance away from enemy Brawlers.

Use Super Near Enemy Safe

Barley throws a flurry of molotov bottles when he uses his Super, creating massive amounts of damage so use it when you're near the enemy safe!

Use AoE Attacks To Defend Your Safe

Barley is also effective in a defensive role in Heist. He can keep enemies away by throwing his attacks around his team's safe, creating space that won't allow them to damage it.

Bounty

Great As Supportive Character

Barley isn't the best in attacking in the front lines. It's recommended to stay behind a bulkier Brawler and do follow up, collaborative damage with his AoE attacks.

Finish Off Retreating Enemies

Barley can pick off escaping enemies by lobbing his attacks towards their direction. He can control which direction they'll go and if their health is too low, he can easily eliminate them with a few well-placed throws.

Brawl Ball

Create A Path Via Area Of Denial
